Petunia Experts and Specialists

To the Trade:

We take pleasure in presenting our new list to the trade. Our increasing business and many complimentary letters received convince us that our efforts to produce the finest strains of Petunias in existence have met with success. In our twenty years' experience in growing fine Petunias, we have never offered strains of such wonderful beauty. Not only have we increased the range of color but improved the habit of growth. Only fully matured seed is picked and this being done by hand insures the highest possible percentage of germination. We claim for our strains the greatest variety of color, finest texture and largest size. We are the originators of the following: Double Peony Flowered, Marvelous Double, Carnation Flowered Double, Double White "Madonna", Fluffy Ruffles, Romany Lass, Steel Blue, Single Rose, and Triumph.

POLLENIZING PETUNIAS

Double Petunias

We take great pride in offering our double Petunias. They have never been surpassed in beauty, size, form or color, if ever equaled. Selection in crossing every flower was made with the greatest care and thought, and the results are a surprise even to ourselves.

It would be impossible to describe at length the many varieties in form and color, pink, snowy white, violet, lavender, mauve, crimson, plain and shaded with variegations in all these shades innumerable.

Many of the flowers measure 5 inches across, none less than 3. They are fluted, frilled, ruffled and pinked. The combinations of color are exceedingly strange and beautiful.
